## Report of Independent Accountants

To the Board of Directors and Shareholders of  
LG Chem, Ltd.

We have reviewed the accompanying non-consolidated balance sheet of LG Chem, Ltd. (the "Company") as of June 30, 2008, the related non-consolidated statements of income for the three-month and six-month periods ended June 30, 2008 and 2007, the non-consolidated statements of changes in shareholders' equity and the related non-consolidated statements of cash flows for the six-month periods ended June 30, 2008 and 2007, expressed in Korean won. These interim financial statements are the responsibility of the Company's management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with the quarterly and semi-annual review standards established by the Securities and Futures Commission of the Republic of Korea. These standards require that we plan and perform our review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our reviews, nothing has come to our attention that causes us to believe that the accompanying non-consolidated financial statements are not presented fairly, in all material respects, in accordance with financial accounting standards generally accepted in the Republic of Korea.

We have audited the non-consolidated balance sheet of LG Chem, Ltd. as of December 31, 2007, and the related non-consolidated statements of income, appropriations of retained earnings, statements of changes in shareholders' equity and cash flows for the year then ended, in accordance with auditing standards generally accepted in the Republic of Korea. We expressed an unqualified opinion on those non-consolidated financial statements in our audit report dated March 13, 2008. These non-consolidated financial statements are not included in this review report. The non-consolidated balance sheet as of December 31, 2007, presented herein for comparative purposes, is consistent, in all material respects, with the above audited balance sheet as of December 31, 2007.

Accounting principles and review standards and their application in practice vary among countries. The accompanying non-consolidated financial statements are not intended to present the financial position, results of operations, changes in shareholders' equity and cash flows in conformity with accounting principles and practices generally accepted in countries and jurisdictions other than the Republic of Korea. In addition, the procedures and practices used in the Republic of Korea to review such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying financial statements are for use by those who are informed about Korean accounting principles or review standards and their application in practice.
