

## LG Chem Global Anti-Corruption Policy

LG Chem has a zero-tolerance policy against corruption and bribery in order to becoming the industry leader by practicing 'Jeong-Do management.'

- Article 1 LG Chem's directors, employees and third-party agents are strictly prohibited from engaging in corrupt activities.
- Article 2 LG Chem's directors, employees and third-party agents shall comply with all applicable domestic and foreign anti-corruption laws and LG Chem Prohibition and Prevention of Corruption Regulation.
- Article 3 LG Chem shall operate an anti-corruption management system that meets global standards and continuously improves the system through monitoring and participation of all members.
- Article 4 LG Chem shall operate a report system and implement protective measures for whistleblowers so that any LG Chem's employees or third-party agent who knows or suspects a violation of this Policy or any anti-corruption laws can report such violation to LG Chem without fear of retaliation.
- Article 5 Directors or Employees who fail to comply with LG Chem Global Anti-Corruption Policy will be dealt with strictly according to the relevant regulations, and the results, such as disciplinary actions, will be disclosed to all employees.
- Article 6 The organization and its members in charge of anti-corruption vested with the independent authority for prevention of corruption.
- Article 7 The top management shall provide sufficient support for operating anti-bribery management system.

LG Chem applies this Global Anti-Corruption Policy to all overseas business sites, and also constantly monitors and reduces any risks regarding to corruption.
